

Mohamed Souei

Front-End Dev

PROFILE

I have a diploma in Information and Communication Technology, and I am actively seeking a position as a remote or on-site junior web developer. With a strong sense of responsibility and excellent organizational skills, I am confident in my ability to contribute effectively to a dynamic work environment. I am highly motivated to apply my knowledge and skills gained through my academic studies and practical experience to make a valuable contribution to a web development team.

EXPERIENCE

2023

internship in TechInventors TN I sousse

BUILDING AN INTELLIGENT HOUSE CONNECTED TO A MOBILE VIRTUAL ASSISTANT

I had the opportunity to work on a mobile app using Dart programming language and the Flutter framework. The main objective of the app was to control actors and sensors connected to Arduino and ESP devices. I successfully utilized Flutter's capabilities to develop a user-friendly interface through which users could provide commands and interact with the connected devices.

To store and manage data, I implemented Firebase as the backend solution. This allowed for seamless data synchronization and real-time updates, enhancing the overall functionality and reliability of the app.

2022

GoMyCode I Gabes Bootcamp

FLULL-STACK JS

I had the opportunity to work on web development focused on the adaptation, search, sale, and purchase of domestic animals. I utilized JavaScript for the front-end development, along with libraries such as React and Redux to create a responsive and interactive user interface.

For the back end, I worked with MongoDB and Node.js to handle data storage and management. These technologies allowed for the efficient handling of large amounts of data and ensured the smooth functionality of the website.

Additionally, I worked on other side projects including an e-commerce website and a streaming website, where I utilized HTML, CSS, and JavaScript to create visually appealing and user-friendly interfaces.

2021

internship in KL PROMOTION I Gabes

DATA MANGMENT ,IT MAINTENANCE

During my internship, I primarily focused on data management, which provided me with valuable opportunities to enhance my office skills, particularly in Excel and Word. I gained proficiency in organizing and analyzing data, creating reports, and utilizing various features and functions within these applications.

Additionally, I had the responsibility of performing IT maintenance tasks for the company. This experience allowed me to develop my technical skills by troubleshooting software and hardware issues and ensuring the smooth operation of the company's IT infrastructure.
